'Sown and grown in Ilkley'

Natural Funeral Flowers

Price Guide

NATURAL FUNERAL FLOWERS

Flowers are a very personal way of celebrating a special persons life and saying farewell. I will work with you to create a bespoke arrangement of beautiful seasonal flowers and foliage to reflect and pay tribute to your loved one. I grow lots of unusual varieties of scented flowers & herbs which are used in my natural, garden style arrangements.

DELIVERIES

I can liase and deliver arrangements to funeral directors in Ilkley, Otley, Guiseley and Skipton or you are welcome to collect them from Pear Tree House Flowers.

Deliveries to Ilkley are free of charge, deliveries to Otley, Guiseley or Skipton are at an additional cost of £12.

HOW I WORK

Between April and October I use flowers and foliage grown in my cutting garden to make beautiful seasonal arrangements in a country garden style.

Ideas for each arrangement are unique, perhaps including your own favourite varieties and colours of blooms. When celebrating the life of a keen gardener, flowers picked from their own garden can even be included. My ethos is to always grow and design in a seasonal, sustainable way, supplying beautiful blooms to the local community.

Outside of this period I can source British flowers from growers in Lincolnshire & Cornwall on request.

TYPES OF ARRANGEMENT

These descriptions and photographs give an idea of the type and style of arrangements I offer. Each will contain different seasonal flowers and be unique for each funeral, reflecting the life of the person whose life you are celebrating.

The bases for arrangements are made from willow and birch with sustainably sourced moss and twine. They are all suitable for use at natural burial grounds (I do not use any floral foam or other non-degradable plastics).
